

## Tell Ertl Oil Shale Repository Arthur Lakes Library Colorado School of Mines

### Theodore Bartke Collection

#### Background Information

#### Theodore Bartke

Theodore Bartke was manager of the Laramie Project Office (LPO) of the Morgantown Energy Technology Center, U. S. Department of Energy. Prior to being sent on a special assignment to the U. S. Department of Interior in 1990, Mr. Bartke donated his collection to the Tell Ertl Oil Shale Repository.

#### The Theodore Bartke Collection

The Theodore Bartke Collection is unique in that it is one of the smallest collections in the repository and consists of a single type of document --35-mm slides. The slides depict various oil shale projects funded by the DOE and managed from the Laramie Project Office. Other slides represent visual aids used in technical presentations made by Mr. Bartke and other members of the LPO staff.
