EARTH • ENERGY • ENVIRONMENT

We renew it for you!

Automatic renewals expanded to cover Mines students and other Library borrowers.

Starting in March 2017, many items borrowed from the Mines Library will automatically renew to save time and effort for Mines Students and other Library Borrowers.

Faculty and staff have been enjoying this service for a while, and it has been so popular that we have expanded it to cover almost all other Library borrowers.

When renewals are available (library loan maximums and number of renewals differ depending on patron group), and items have not been requested by someone else, library loans will be automatically renewed two days before the due date.

There's no need to renew these items! We do it for you!

Every month we will send you a helpful email with a list of the material you have checked out.

Remember, if you are finished with your library materials, please return them to the Library.

Also note: items can be recalled at any time. Please see our [Borrow and Renew page](#) for more details.

If you have questions don't hesitate to contact us.
